GENERAL INSTRUCTIONS

WHO MUST FILE: Every corporation carrying on business or having the right to carry on business in Connecticut whose estimated current year tax liability, as shown on *Schedule 1*, Line 3, is more than \$1,000 regardless of whether the corporation was subject to the prior year \$250 minimum tax.

COMBINED RETURNS: If you are filing a combined return for an affiliated group of corporations, attach a list of the names and registration numbers of those corporations. Enter the total combined estimated current year tax including preference tax on *Schedule 1*, Line 1.

TAX SHOWN ON THE PRECEDING YEAR RETURN: The tax shown on the preceding year's return is the amount of tax before the application of any tax credits.

INTEREST: If the current year tax is more than \$1,000 and the estimated payment does not equal (1) 63% of the current year tax or (2) 70% of the tax shown on the preceding year return (without regard to any tax credits), whichever is less, interest will be assessed at the rate of 1% per month (or fraction thereof) on the amount of the underpayment for the period of the underpayment. If a company uses an estimate of its current year's tax to determine the required annual payment and such amount changes during the year, it may find that earlier installments of estimated tax were underpaid. Payments of estimated tax are credited first against underpaid installments in the order in which such installments are required to be paid.

SCHEDULE 1
